Description :

Prsentation de l'diteurModern, original fiction for learners of English. A struggling writer and a computer with a mind of its own fight for control of the writer's story and destiny. When Frank Wormold buys a computer to help him with his writing, he gets a lot more help than he wants. The ensuing battle of wills between himself and the computer makes Frank realise what the important things in life really are. Revue de presse'What distinguishes the series from all the others is the zest and freshness of the text. Where the emphasis in other series is on plain and straightforward language, Cambridge English Reading texts typically use very modern expressions and the dialogue is faster moving. This has an impact on the quality of the audio cassettes, which make for very enjoyable listening.' David R. Hill, Survey : Readers, ELT

Journal 'It was only a matter of time before a major ELT publisher set out to challenge the market dominance of Penguin Classics in the area of readers CUP have hit back admirably. With something for everyone in your classes, this series is well worth investing in. In fact, it's going to be a difficult act to follow by other publishers.' IATEFL Issues 'The series breaks new ground in two respects. The first is the light and informal style of writing. It is notoriously difficult to write fluent prose using restricted lexis and syntax. Part of the secret is to use word and grammar lists flexibly; but it requires flair and a good ear to produce prose and dialogue that read so well and give such a genuine flavour of modern idiom.' English Teaching Professional 'These were a very good read: exciting fast-moving stories at all levels, and a good mixture of subjects. Most touched on up-to-date themes, such as corruption, refugees, psychology, hunger, feminism, or ecology without being prosy, or moralising.' BaNina Vivanco, SATEFL Newsletter Vol 19 No 3 'This is a well presented, authentic looking series of readers that students should enjoy. They are graded into five levels, and the accompanying cassette will be useful, especially for pronunciation audio versions are very popular with students.' Josephine Caruana, Network News, Issue 34
